

Groundwork West Midlands Environmental Business Services

Groundwork West Midlands Environmental Business Services provides environmental support, advice, information and training to businesses and organisations across the West Midlands.

Environmental Management Systems (EMS)

Groundwork can provide a bespoke **EMS support package** for your organisation. From aspects assessment, to legal compliance, procedure writing and auditing, we can provide support to suit your needs.

Legal Compliance Services (Environment and Health & Safety)

All organisations need to demonstrate compliance with environmental and health & safety legal requirements, and Groundwork have a range of services to help you:

- Environmental / health & safety legal compliance audit.
- Register of environmental / health & safety legislation, specific to your organisation.
- Legal register quarterly update service.
- Monthly legislation e-newsletter.

Training Courses

- Learn how to implement an EMS in your organisation by attending the **IEMA (Institute for Environmental Management and Assessment) Groundwork Environmental Management Systems (GEMS) Course**. This 6 part course provides all the information, tools and techniques to help you implement an EMS.
- Learn how to carry out audits of your organisation's EMS by attending **IEMA approved Internal EMS Auditor Training**. This **three day** course equips delegates with the skills to conduct an internal audit, compile and audit trail and report on corrective action. Alternatively, Groundwork also offer a **1 day Internal Auditor Course** which can be made bespoke to your organisation. This basic auditor training is ideal for those who already have general auditor experience.

- **CIEH (Chartered Institute of Environmental Health) Level 2 Award in Environmental Principles and Best Practice.** This qualification provides an awareness of key environmental concepts and an introduction to environmental management systems. It is designed for all members of staff whose activities could have a significant impact on the environment, or supervisors or managers who are being introduced to environmental issues for the first time.
- **Spillage Response Training.** This course introduces the environmental issues associated with spillage incidents and assists with understanding the actions to take in the event of a spillage. It provides delegates with the knowledge of the consequences of pollution incidents and how they can be avoided, and includes a practical exercise that provides experience of effectively dealing with a real life spillage scenario, using supplied spill kits.

Other Bespoke Services

In addition to the above we can provide a range of other services specific to your company, including:

- **Environmental Permitting Support**
- **Health & Safety Review**
- **Resource Efficiency Review**

Funding may be available!
