

# Health and Safety Legal Services

***Build your awareness of legislation, check compliance, reduce risk, maintain and improve a safe and healthy working environment.***

## **What is it?**

A support package that helps you identify health and safety legislation; health and safety issues; and what you need to do to achieve compliance.

## **Benefits**

- Assurance of being aware of H&S legislation and keeping up to date.
- Reduce risk of regulatory penalties such as fines, prohibition or improvement notices.
- Improved safety culture with reduced incidence of accidents and incidents.
- Improved and safe working practices and healthy working environment for employees.

## **Groundwork Support**

### ***REGISTER OF HEALTH AND SAFETY LEGISLATION.***

A comprehensive register which outlines the regulatory requirements; relevance to the organisation; and can be customised to suit the specific needs of the company.

***Update service:*** Quarterly update service to maintain your register, plus quarterly newsletters.

### ***LEGAL COMPLIANCE AUDIT.***

A full site and documentation audit assessing compliance with health and safety legislation. A complete audit report is produced with appropriate recommendations.

### ***HEALTH AND SAFETY REVIEW.***

A quick and practical review of the status of health and safety practices in your company. The review aims to identify the key actions and improvements needed to put the company on the pathway to a firm compliance footing. Follow up support and guidance available to assist progress.
